Hello! My name is Landon and I am an academic graphic and materials designer working in Asia. I have

been in the education field all my career and have held a variety of positions within the industry. I studied acting during my undergraduate studies and went back later to earn a graduate degree in education with a specialization in curriculum design in 2012. I have worked in four different countries and taught a variety of nationalities. My students and co-workers are at the heart of everything I create, and I am always available for support. If you have any questions, feedback or ideas please get in touch with me and I'd be

happy to listen. Thank you! landonseigler@yahoo.com

WOULD YOU RATHER?

ABOUT THIS RESOURCE

'Would you rather...?' is a popular game to play when first trying to get to know someone new or learn about a group of people. Its ideal for those times when you want people to discover more about one another and break the ice before getting into something a little heavier, like a training session, class project or, even, a new school year.

Though the teacher or trainer is the best one to determine how this activity is presented and played, there are two suggestions of use offered below. Other variations can be created at the discretion of the leader.

SUGGESTIONS OF USE

Option 1: Put a group of students together at a station and give them the printed 2 pages with quesitons. Have them take turns drawing and reading the 'would you rather' questions. They can either answer themselves or pass it to another partner.

Option 2: Put two students together at a station and give them each the printed 2 pages with quesitons . Have them take turns asking and answering the questions. Be sure to encourage them to ask follow-up questions such as 'How did you choose that?' or 'Why do you think _____ is better than _____?'
